323 Ridgedale Ave
East Hanover, NJ

Saturday Nov. 7, 2020
1-3pm

*Masks and temp
checks are required*

Proper Car Seat Use
Can Save Lives and
Reduce Injuries

Motor vehicle crashes are the number one cause of death of children over the age of six months in the United States. The proper use of car seats is one of the simplest and most effective methods available for protecting the lives of our young children. 4 out of 5 car seats are used incorrectly.

Certified Child Passenger Safety technicians will be ready to educate you and inspect your car seat for proper installation, fit and use. Come prepared to install and use independently
